OIL SCANDAL STILL DOMINATES THOUGHTS OF AMERICANS

ANSWERING QUERY ROBBED OF $70

Union Township Man Victim of Highwaymen By a Rather Unique Method—Stops His Car When He Is Interrogated

GOLD WATCH IS ALSO TAKEN

John Bierbaugh, At the Point of a Gun, Forced to Drive His Machine to Side of the Road—Notifies Finleyville And Pittsburgh Authorities

John Bierbaugh, who resides in Union township, was held up and robbed Tuesday morning about 5 o'clock, just after he had started by automobile to Wheeling, West Virginia, to attend the funeral of his cousin, Frank G. Dustin.

Bierbaugh was driving along the Finleyvilel-Riverview pike, about 3 miles from Finleyville, when he noticed another car following him. He paid no attention to the machine but continued on his way and had proceeded about a mile when the car drew up alongside and one occupant asked him for directions to Washington. He slackened the speed of his car to better hear the men. As he did so, an occupant of the other machine lowered the side curtain and repeated the question, the driver bringing the car to a stop. Bierbaugh, also stopped his machine and as he did so, one of three occupants of the other car drew a revolver and commanded Bierbaugh to hand over his money and watch. The surprised man remonstrated with the robbers but a man seated in the tonneau of the car stepped into Bierbaugh's machine and relieved him of his money amounting to about $70 and a valuable gold watch. Bierbaugh at the point of a gun was forced to drive his car to the side of the road while the highwaymen turned their car around, one of the trio standing guard over him until the car headed toward Finleyville approached him and he stepped into the rear seat. Bierbaugh drove to a farm where he called authorities at Finleyville and Pittsburgh, giving them a description of the men and the car. Later Bierbaugh returned to his home near Gastonville.

Inquiry at the local hospital this morning elicited that the condition of Clem Pireaux, the Lock Hill gen- mobile driver, whose identity has not been established, is about the same as that of yesterday morning. Mr. Pireaux was run down by the driver of a Ford in Allenwood Tuesday night.

The attending physician states that while Mr. Pireaux's condition is serious, it is thought that his chances for recovery are favorable, providing pneumonia does not develop.

LATE NEWS FURNISH OIL SENSATION

Washington, March 6. — (United Press).—A telegram signed by Calvin Coolidge and addressed to Edward B. McLean, publisher of the Washington Post, was read in the Oil scandal record and was the foremost sensation in the committee's developments today. The telegram was sent from Washington to Palm Beach while McLean was there, with former Secretary of the Interior Fall as his guest. It read

"Jo[illegible]2—E B McLean, Palm Beach, Florida. Prescott is away. Advise Slemp with whom I shall confer." Calvin Coolidge."

Slemp, secretary to the President, was in Florida at that time. He has already testified that he attended several dinner parties with McLean.

The telegram from the President to McLean climaxed a series of smashing sensations which had just preceded reading of Coolidge's message. These included a reading of telegrams just disclosed.

That H. E. McKenna, doorkeeper at the White House office relative to Slemp, the President's secretary, notifying McLean at Palm Beach of Slemp's departure for Florida on the day Slemp left. That Bernard, New York financier and prominent figure in war time administration, was in communication with McLean at Palm Beach, and sent him "affectionate regards."

That Senator Smoot, a member of the Senate committee, was in direct communication with Albert B. Fall, chief figure in the scandal.

That William J. Burns, head of the secret service of the department of justice, notified McLean of an investigation of his connection with the department as a "dollar a year man."

That Falls and Senator Lenroot, chairman of the investigating committee, exchanged messages regularly regarding the summoning of witnesses in the inquiry.

The significance of the Coolidge telegram to McLean and the identity of "Prescott" named in it were not apparent at the time the message was read.

The second message from Mr. Coolidge to McLean was as follows:

"White House, February 12.

"Thank you for your message. You have always been most considerate. Mrs. Coolidge joins me in kindest regards to you and Mrs. McLean. Calvin Coolidge."

Mr. Coolidge today immediately upon being advised of the publication by the senate investigating committee of his telegram to E. B. McLean, issued the following statement through his Secretary, Flint.

The telegram related to the district commissionership. Samuel J. Prescott is my Republican chairman, and the President desires to confer with him regarding district matters."

With equal dispatch, President Coolidge upon being informed of the second telegram to McLean being read into the committee's record, issued a second statement.

"The telegram sent to Mr. McLean, February 12. The statement said: It was in regard to a message from Mr. McLean congratulating the president on his Lincoln Birthday address in New York. The telegrams exchanged were similar to others exchanged and sent out in that same connection. It amounts simply to an exchange of amenities."

Floreffe Man Hurt, Gets Big Damages

In common pleas court, Judge Erwin Cummins presiding, a verdict by agreement for $4,250 in favor of the plaintiff was taken in the case of George W. Eichler, of Floreffe, against the Bentleyville Telephone Co. This was a suit to recover damages for personal injuries sustained, when Mr. Eichler was knocked from the top of a moving box car at the Acme mine No. 2, near Bentleyville, by low wire of the defendant company over the railroad tracks.

Mr. Eichler is a conductor on the Mariana branch of the Pennsylvania railroad. On January 21, 1921, he was on top of his train when he was hit by these wires which were hanging low over the tracks. He was knocked from the top of a box car and sustained serious personal injuries.

In the suit of John Birkhamer, a farmer of Union township, against the Pittsburgh Railways company, a verdict by agreement was taken yesterday before Judge Cummins for $1,250. This was a suit to recover damages for five valuable cows killed

PRESIDENT SEEMS TO BE IN QUANDRY

Believed That Mr. Coolidge Is Again Considering Whether He Should Ask Attorney General Daugherty to Resign

RETURNING FROM FLORIDA

Attorney General, Who Went to Florida, Enroute to Washington, Prepared to Resume Charge of the Department of Justice And Defend Himself

Washington, March 6— (United Press).—President Coolidge has "reopened" the question of Attorney General Daugherty's resignation, according to information from persons close to him.

Recent developments, which have furnished the President with additional information concerning the department of justice are held to be responsible.

While the Senate committee named to investigate Daugherty was today sifting a great mass of tips and "leads" preliminary to beginning open hearings next week Mr. Coolidge was understood on excellent authority to be again considering whether he should ask Daugherty to withdraw from the cabinet.

Daugherty himself was on his way back to Washington from Miami, Fla., prepared to resume active charge of the department of justice, and to defend himself before the Senate committee.

When Daugherty left Washington hurriedly several days ago, it was the generally accepted view in the capital that President Coolidge had, tacitly at least, agreed to let him have his hearing before the Senate committee before asking him to quit the cabinet. This view was based on the silence of the president it is maintained.

Disclosures regarding pardon and parole cases said to involve members of congress and other considerations not yet revealed are understood, however, to have promoted the president to reconsider. Strong arguments have been advanced to him that he ought at this time to have at the head of the department some one whose physical health for one thing would permit him to attack with vigor the work pending before the department. Daugherty himself is not well and his wife's illness called him from his desk here to Florida.

Mr. Coolidge had a conference again yesterday with Senator Borah, Idaho, with whom he has previously discuss-

Highest Dam In The State Now Under Course Of Building

Harrisburg, March 5—(United Press)—The Watres Dam, now under construction by the Spring Brook Water Supply Company on Spring Brook Lackawanna county, 10 miles southeast of Scranton, will be the highest dam in Pennsylvania, statistics furnished by the department of forests and waters showed.

The dam is an earth embankment and is to be 131 feet high, 139 feet long and the top, 15 feet above the level of spillway, will be 20 feet wide.

Its construction will involve the excavation, placing and rolling of 378,000 cubic yards of earth, of which about one-third is now in place. The reservoir will cover 164 acres at the spillway level and its capacity will be 1,885,000,000 galls which will serve as an additional water supply for Wilkes-Barre and vicinity.

The dam was started late in 1921 and the company hopes to finish it this year.

One of the novel features of the undertaking is the spillway, a channel in rock excavation entirely separate from the dam. It is 70 feet wide, about 300 feet long and has been designed to provide for an extreme storm of eight inches in eight hours, with an average runoff of 70 per cent. The outlet is a tunnel through rock about 200 feet beyond the left end of the dam. It is horseshoe shaped, about nine feet high and nine feet wide and is lined with concrete.

The spillway outlet was driven before work on the dam proper was begun and the water of Spring Brook is being diverted through it during construction.

Spring Brook is acknowledged to be one of the purest mountain streams in the state.

A NEW ORGANIZATION.

In North Charleroi has been formed what is known as a School and Community Improvement Association, the objects of which are primarily, for the best interests of the child.

In connection with the formation of the organization, was an address delivered by Mrs. C. B. Renn, a lady who is connected with the California Normal. She emphasized a truism, aptly put, that a "quitter never wins" and a "winner never quits." This sort of logic applies as well to the adult as to the child. In the battle of life how true it is that early training demonstrates successes and failures.

The Mail desires, through this method, to congratulate those responsible for the formation of the Association in North Charleroi. The morals and the intellect of the child must be cultivated if the future citizens of the republic are to carry on the work of those in whose hands it is entrusted today. The cornerstones of success for the child must be builded from the foundations of morality and intellect cultivated, and to this program should the lives of the adults of this day and age be concentrated, as well as devoted.

PREACHING TO A PEOPLE

Of extraordinary interest is the announcement that there is to be a "College of Preachers" at the National Cathedral in Washington. The plan has promise of far-reaching results. It is inspired by a great vision of the future. But it is no less clearly marked by practical wisdom and keen sense of immediate need and opportunity.

A National Cathedral, regardless of creed, must serve the nation. Else it belies its name. Standing at the nation's capital, as an enduring monument of a people's faith, it must also be a power house out from which will flow currents o fspiritual energy. Into this has been the vision of the builders and promoters of the National Cathedral. Now the first step is to be taken towards its fulfilment. It is a step wisely chosen an dwell timed. In the spiritual world, as in the natural, harvest depends on seed-sowing. The preacher is the sower. Nothing comes after unless he goes before. So it has always been. The birth, the growth, the many "revivals," of the Christian church, have come through the ministry of preaching. The harvest has indeed been rich and varied. It includes the whole sweep of Christian civilization. But art, philosophy, science, literature, and in a word, all Christian institutions, have sprung from the sowing of the seed, from the preaching of the word.

Sound in theory, this new departure is no less timely. It comes at the right moment. That faith is dying, and religion in danger, may indeed be true, but it is only half the truth. The people know the danger. They seek relief. They want their faith restored. No doubt there is much groping in the dark, much running after strange new gods, much criticism of old traditions and beliefs. But these at bottom are signs of life and symptoms of spiritual awakening. They give the challenge of the hour. They show the door now open, to be entered with the least possible delay. "How shall they hear without a preacher?. How shall they preach except they be sent?" These were questions asked and answered in the days of the Apostles. They are asked today, and today the College of Preachers means to find the answer. God speed the work!

THE OFFICE CAT

The place downtown where I occasionally eat had "Sur Loin Steak" and "celery soup" on the bill of fare today, and in the desert section of the card was "angel food."

There is some comfort in the philosophy that a man can get used to anything, such adjustments being so frequently necessary.

BY THE SCHOOL BOARD

We oft recall those childhood days
Though now we "miss"-ed and "mistered"-ed
And recollect the red school house,
Where ignorance was "bliss"-tered.

As we understand it, New York's intention is to drive out all crooks who don't pay office rent.

Be ambitious—but don't begin at the top.

No man is as stingy as his poor kin claim he is.

Personally, I am not opposed to rouge, but when we get interested in a young lady we wonder how she would look if her face is clean.

Stealing, even if you are not caught, makes you a thief.

Here's exciting radio news. Dishpans are being used for antennae. Now, more girls will see them.

A good many people who talk about common sense have none.

READ THE OFFICE CAT

Don't be a grouch and wear a frown
If you expect to thrive.
It is not the proper attitude
To keep a biz alive.
No rouch was ever known to "draw"
Nor frown to boost a sale,
And those who grumble at their work
Ore almost sure to fail.
So face each "prospect" with a smile
To keep sweet-tempered—try;
Always get 'em laughing
And then they'll come and—buy.

Nature knows her business. She gives most of the children to people who know nothing about scientific methods of raising children.

A PROMISING ENTRY

Said a voice at the telephone:
"Hallo, hallo! Is this the gas company's office?"
"Yes, what is it?"
"When do the entries for the next races open?"
"We don't know anything about entries or races. This is the gas office."
"I am aware of that, but I thought you could tell me."
"Why? What do you want to know for?"
"Oh, nothing in particular. I have a gasmeter I would like to enter, that's all."

Run away from difficulties and you won't go a long way.

COUNCIL IS TO TAKE ITS TIME

Organization of the Washington police department under the third-class city charter will not take place earlier than next Tuesday evening, when the regular meeting of the city council will be held. There was some talk that an extra session might be called for that purpose.

Members of council are now busily engaged working on the budget and considering the tax rate for the coming year, said Mayor Hoyt last night. "Besides the list of candidates has not been presented to the members as yet and they will want to give it some consideration before taking up the task of electing the members of the police force."

Washington's police force is to be enlarged but to what extent seems to be problematical. That more officers are needed to protect the city is generally agreed upon. Some are strongly in favor of having a force of 16 men, while others favor 14 and still more think that 12 will be sufficient.

The present force consists of nine men, including Chief of Police George B. Haines. There are no extras available at present to serve when any of the members become ill or want to be relieved from duty for a few days.

The commission yesterday practically completed the classification of the candidates who took the oral and written examinations Wednesday and will have a finished report ready for next Tuesday evening's session of the council.

Burns Healed Without Leaving A Scar

My sister was burned last winter when putting coal oil on a deadened fire and the flames burst out into her face. We used nothing but San Cura and didn't even have a physician and in almost an incredible short time her face was perfectly healed without a scar. It is the finest thing for burns that I have ever seen. Have also used it for other things. Just lately an infected toe and immediately it was healed.—Hattie S. Pitts, 18 Iowa Circle, Washington, D. Try San Cura Soap for banishing Blackheads, Pimples and clearing the complexion. 25c, at Hennings Drug Store.

AFRAID SHE COULD NOT LIVE

Operation Advised. But Lydia E. Pinkham's Vegetable Compound Made It Unnecessary

Glasgow, Kentucky. — "I was run-down, nervous, with no appetite. My side had given me trouble for five or six years. At times it was all I could do to live, and the doctor said I couldn't live but a short time longer without an operation. That was two years ago. My sister-in-law recommended Lydia E. Pinkham's Vegetable Compound. She had never used it herself, but she said one of her neighbors suffered just like I did, and it cured her. After I had taken four bottles the pain left my side. I had a fine appetite to eat anything that was put before me, and I began to do all my work and my washing, something I hadn't done for years. I am a dressmaker, and this last fall I began suffering with my side again, so I began taking the Vegetable Compound again. I am on my fourth bottle, which makes eight in all I have taken. I feel so much better when I take it and everybody tells me I look better. My appetite improves and I feel stronger in every way. I am a very nervous woman and it seems to help my nerves so much."—Mrs. MAGGIE WALLER, Glasgow, Ky.

CITY GAY AT THE TOMB REOPENING

Luxor, March 6.—(United Press).—Luxor was gay with flags and bunting in the Egyptian national colors today, and crowded with sight-seers and natives and distinguished visitors here for the official opening of the tomb of Tut-ankh-amen under government supervision.

Three luxuriously fitted special trains arrived from Cairo bringing members of the government who came to pay their respects at the shrine of one of Egypt's first rulers. Two hundred notables, including Viscount and Viscountess Allenby, the Duke and Duchess of Aosta, and virtually the entire diplomatic corps came along.

No longer was Richard Carter, who is forced to content himself with a law suit in the Cairo courts, the perspiring master of ceremonies whose word was law. The special correspondent of the news syndicate to whom Carter and Lord Carnarvon sold the news rights to their discovery was forced to take his chances along with correspondents representing the press of the world.

BORAH MAY BE THE ATTORNEY GENERAL

Washington, March 6. — (United Press).—Rumor is busy naming probable successors to Attorney General Daugherty.

Though the White House denied anyone is being considered for the post, inasmuch as Daugherty has not resigned, gossip mentions these men in connection with the office:

Judge William S. Kenyon, former Senator from Iowa, now on the circuit court of appeals.

Senator William E. Borah, Idaho.

Governor Groesbeck, Michigan.

Borah would not accept the place, it is believed. Groesbeck is due in Washington today and may confer with the President.

THE TRIAL FOR TREASON IS OFF

Munich, March 6.—(United Press).—The trial of General Ludendorff, Adolf Bitler and eight others for treason was broken off spectacularly today as the state prosecutor declared he would no longer put up with attacks and insults such as those to which he had been subjected by attorneys for the defense.

It finally was agreed to continue the hearing tomorrow, although the prosecutor had at first declared he would not continue at all.

So many challenges to duels have been hurled at General Lossow, former head of the Bevarian army, as result of his alleged treatment of General Ludendorff, as told by witnesses, that Lossow is unable to accept them all. The general was charged with having been in sympathy with the beer cellar putsch that failed last November, and with deserting the cause.

Don't Pay $1,000 or More

for a car, without knowing what the leader offers in the fine-car field

WE made a canvass of many who bought rivals of Studebakers. We said, "Tell us why you liked your car the better."

The majority said, "We did not even look at the Studebaker." Most of them bought new models of the car they owned before.

* * *

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world.

Studebaker is the sensation of modern Motordom. Its amazing growth signifies a new situation in this field.

Last year, 145,167 fine-car buyers paid $201,000,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons for this trend?

Facts to consider

Studebaker assets are $90,000,000 — all staked on satisfying, better than others, buyers of high-grade cars.

Over 23,000 men have their future at stake on giving you maximum values.

$50,000,000 in modern plants and equipment, of which $32,000,000 has been added during the past five years.

$10,000,000 in body plants to give you superlative beauty. To give that final touch for which Studebakers have been famous for decades.

125 experts who devote their whole time to studying betterments. Who make 500,000 tests per year to maintain our supremacy.

* * *

Consider Studebaker history. For 72 years this concern has stood for high principles and policies.

For two generations, against all the world, it held first place in horse-drawn vehicles.

Now for years its name and fame have been committed to like attainments in fine motor cars.

If you only knew

There is no room here for details and comparisons. You will find them all in Studebaker showrooms. But let us cite some significant facts.

That lack of vibration, so conspicuous in Studebakers, costs us $600,000 yearly in extra machining of crank shafts.

That matchless strength in vital parts comes from the costliest steels. For some we add 15% to the quoted price to get exactness in them.

That Chase Mohair, used in our closed cars, is made from the soft fleece of Angora goats. Cotton or ordinary wool, or a combination of both, could reduce our price $100 to $150 per car, but it would sacrifice Studebaker quality.

Note the bumpers, the steel trunk, the extra cord tires, the motometer, the courtesy light on some models. Figure what they would cost as extras.

The infinite care

We use 35 formulas for steel, each worked out to exactness for supreme service in its place.

We employ 1,200 inspectors to make 30,000 inspections of the material and workmanship in each Studebaker car — before it leaves the factory.

Consider how Studebaker has always led in the building of high-grade cars. We were first to use cord tires as standard equipment. We were the first quantity manufacturers to build bodies of the highest grade.

If you want beauty, fine upholstery, rich finish and equipment, consider that Studebaker has had more experience in fine coach building than any other motor car maker.

See the Studebakers

Studebaker builds more fine cars than any other plant in the world.

Last year 145,167 wise motor car buyers paid $201,000,000 for Studebakers.

The demand has almost trebled in the past three years. Studebaker now holds a leading place in the high-grade field.

Our modern plants and their equipment cost $50,000,000. All to give you the maximum value at the minimum of cost.

It is folly to buy a car in this class without knowing what we give.

Our place no accident

The pedestal place which Studebaker holds in the fine-car field is not the result of accident. It comes from principles as old as this business—the ceaseless and determined ambition to excel.

Learn the result of these efforts. Compare detail by detail, part by part, with any car you wish. When you foot the advantages, you will find that they number scores.

* * *

These are facts you should know. They are inducing 150,000 per year to choose Studebaker cars.

Some sell at $1,045. Some meet with every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

* * *

People have learned these facts—hundreds of thousands of them. The demand for Studebakers has almost trebled in three years. It has become overwhelming, even for our facilities.

Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

CUDDY WILL SEE ENGLAND

Cuddy De Marco seems destined to see not only the "Wild and Wooly West," but England. Writing for the Pittsburgh Sun, in an article appearing last night, James Mason, in stating the scarcity of big fellows in California, closes the article by the following complimentary allusions to De Marco:

"I intend to have Cuddy DeMarco come out here after he had fought Dick Conlon at McKeesport, but he will keep busy in the East instead. DeMarco shows every week or every day that I made no mistake in him and I think he is today the best little fighter in the country. No fighter I ever knew has done what this boy has done, young or old. Last year he fought 43 fights, most of them away from home and here this year he has fought nine already and has never lost a decision. They want him at Montreal to meet Dundee, and if the terms are right the match will be made. All the fighters are taking a crack at Pedro Campo since Cuddy knocked him out in Philadelphia, even [illegible] among them has done what DeMarco did—stop him. By the way, DeMarco is the champion of England in two classes, or I might say three. He all but knocked out the bantam champion, Johnny Brown, and did ringside weight for him. He then murdered Joey Fox, the featherweight champion of Great Britian, and twice knocked out Billy Marchant, who calls himself the lightweight titleholder of England. Cuddy is the style of fighter that the English would rave over, and I intend to make the trip over there, maybe next fall. John McGarvey is talking of putting Joe Lynch on at Motor Square Garden, with Bricky Ryan, the best boy in the bantam class in Pittsburgh and I am ready to make the match as soon as McGarvey says the word. The Pittsburgh baseball team is to play here soon, and I would like to be here and root for the Pirates, but we will have to get away shortly. Greb and I are going by boat to Los Angeles and we may stop at Paso Robles on our way back to see the Pirates train."

ed Daugherty's status several times.

The president called Borah to the White House at an early hour. Beyond admitting that Daugherty was the subject of the discussion Borah would not reveal the purpose of the conference.

The Senate committee speeded up its preliminary work today with the intention of calling the first witnesses next Tuesday or Wednesday. Hundreds of letters, telegrams and notes based on information furnished by persons who called on members of the committee have to be gone over. The committee notices that its plans would be kept secret because of fear that witnesses might be intimidated has opened flood gates of information and many persons have come forward to volunteer specific facts.

A New Vision of Hope

To the family, life looked barren and cold. Widow and youngsters—who would guide them?

Then, when the will was read, the wise foresight of a loving husband and father was seen. Monthly while he lived he had set aside a sum to build up a living trust. And at death, he had made sure all his assets would be safeguarded, by naming this Institution as his executor.

Will your dependents, too, be freed of care and money worries? We'll gladly tell you how it can be done.
